

Burnside Trash COVID-19 update

The status of spread of this virus is changing rapidly. Although the change is constant, our focus remains on the following priorities:

- The health and safety of the employees of Burnside Trash and our clients.
- Maintaining our service delivery and business.

As such we will be monitoring the situation, listening to advise of government and health officials, and making the appropriate decisions at our workplace.

We ask that if you have any symptoms or are in self isolation due to being unwell that you delay in booking our service until your isolation period is over.

The following guidelines have put into practice by all the team at Burnside Trash to ensure the safety of both clients and all employees:

- Social distancing is practiced at all time, only one person per vehicle at the same time, my team will travel separately to jobs in different vehicles.
- PPE's adhered to when at work, including sanitising touch spots at properties and on our infrastructure pre entering a property
- The waste has not been touched by other parties for a minimum of 3 hours.
- Each employee must identify risks and covid-19 hazard at each site pre commencing work.
- Payment only done by card and this will be a moto payment to practice social distancing. (cash payments are not permitted).

As a business we are still very much open and will continue to deliver the service you have all grown to enjoy.
